A highly motivated individual with extensive knowledge of languages and development tools, seeking a position within a growth-oriented company. I aim to utilize my skills to benefit the company while also having the opportunity to further develop my own abilities.

EDUCATION

2016 - 2019 Diploma (69%)

Computer science and engineering,
D. S. D N Polytechnic, Shimoga.

2019 - 2022 Bachelor of Engineering

Information science engineering,
JNN Collage of Engineering, shimoga.

WORK EXPERIENCE

Part time Freelance (3 years)

2021 - 2023

I have successfully completed and provided assistance for approximately 20-25 final year projects, focusing on various technologies such as full stack web development, AIML, and IoT.

Full stack developer (1.2 years)

2022 - PRESENT

I began my employment at Everest IMS in September 2022, where I gained valuable experience in full-stack development. During my time there, I focused on utilizing technologies such as Python, Angular, MongoDB, PostgreSQL, and RabbitMQ. Additionally, I had the opportunity to work on Linux bin executable projects using Python.

FUNDED PROJECTS

- Got funding of ₹ 2.5L for agricultural robot from NewGen IEDC.
- Got funding of ₹ 6K for Fired detection using AI/ML from KCST.
